

STILL THE DRUMS

Many of our Veterans are haunted by secrets and memories buried deep in their hearts and minds never to tell their stories, until now.

M.I.A. in Vietnam since 1968, the remains of Lt. Jack E. Buchannon, U.S.M.C., are found, and identified. He's brought home, awarded the medal of honor and buried as a fallen hero.

His three best friends, all ex-marines and Vietnam veterans meet after the funeral to raise a toast to their friend...

but as old war memories come crashing back to life their little get together suddenly turns into an intense edge of your seat psychological drama as we peer in on the lives of four veterans thirty-nine years after their war has been over, only to learn that the men who fight in wars are changed forever!
